# PRODUCT LIST

One of the major advantage using Exodus Wigs and Frontals is that we make them using Indian Remy Hair with a thick texture unlike most of them made using Cuticle free Remy hair of other origin which is otherwise Non-Remy hair.

So, the feel is good and natural, which perfectly carries with your real hair. The density is usually thick and most of these products can be customized as per the clients wish and specifications.

N.B. Please note that all our products are made for customer order in our factories, and we don't have any online shop. The delivery time for each product is subject to its availability and production time.

# PRODUCT TEXTURE

Naturally, even the best Indian Hair is never straight as most Indian women have a wavy texture. It is very rare to see perfect straight hair on any Indian woman unless they straighten it artificially.

Indian Hair is usually wavy in texture. Therefore, it is never difficult to source them, unlike Straight hair. Indian wavy hair is the best available hair in the international market. Our wavy hair gives a classy appearance and shine.

Indian Natural Curly Hair is again unique as very less Indian women have such type of hair. Though sometimes wavy is categorized as curly, Exodus curly hair is natural curly hair with an elegant manifestation.

Since it is difficult to find natural curly hair in the market, clients prefer to buy artificial curls according to their choice. Deep waves are made for the customer's choice, and they are permed from natural Indian Remy hair.
